

# Blue Ridge Group Inc. Well Status Report

**Project** West Pebble Island  
**Well Name** Little Arco Well No. 1-T  
**API #**  
**TRRC #**  
**Date Report Issued** 05-06-04  
**Ownership Per Unit**

## CURRENT STATUS

|                          | Drilling Operations                    |                                     | ReCompletion / Remedial Ops         |
|--------------------------|--|-------------------------------------|-------------------------------------|
| <input type="checkbox"/> | Not Yet Spudded                        | <input type="checkbox"/>            | Workover / Remedial                 |
| <input type="checkbox"/> | Moving In Drilling Rig                 | <input type="checkbox"/>            | Recompletion - Single               |
| <input type="checkbox"/> | Drilling                               | <input type="checkbox"/>            | Recompletion – Dual                 |
| <input type="checkbox"/> | Logging                                | <input type="checkbox"/>            | Recompletion / Workover Scheduled   |
| <input type="checkbox"/> | Log Evaluation                         | <input type="checkbox"/>            | Recompletion / Workover In Progress |
| <input type="checkbox"/> | Running Production Casing              |                                     |                                     |
|                          | Completion Operations                  |                                     | Production                          |
| <input type="checkbox"/> | Initial Completion – Single            | <input type="checkbox"/>            | Producing Gas                       |
| <input type="checkbox"/> | Initial Completion – Dual              | <input type="checkbox"/>            | Producing Oil                       |
| <input type="checkbox"/> | Completion In Progress                 | <input checked="" type="checkbox"/> | Shut In                             |
| <input type="checkbox"/> | Testing                                |                                     |                                     |
| <input type="checkbox"/> | Stimulation Proposal Under Review      |                                     |                                     |
| <input type="checkbox"/> | Stimulation Scheduled                  |                                     |                                     |
| <input type="checkbox"/> | Stimulation In Progress                |                                     |                                     |
|                          | Hydrocarbon Sales Activities           |                                     |                                     |
| <input type="checkbox"/> | Gas Contract Placed                    |                                     |                                     |
| <input type="checkbox"/> | Production Facility Under Construction |                                     |                                     |
| <input type="checkbox"/> | Pipeline Under Construction            |                                     |                                     |
| <input type="checkbox"/> | Oil Tank Batteries Under Construction  |                                     |                                     |

Gas Sold This Week      Yes       No   
 Oil Sold This Week      Yes       No

Comments: Tubing completed in the Wilcox 9400' Sand. Last test (swab) started with 15-2090 oil COT, but subsided to a trace. Currently evaluating adding perforations 9545-50'.
